Parent Testimonials:

“Pupils are appreciated as individuals, supported to find what they are good at, and given the confidence to tackle whatever challenges they are given head on with an underlying blanket of outstanding pastoral support to nurture them as they grow.”

“Just first class from start to finish, turns toddlers into young adults with confidence and courtesy.”

“From a parent with impossibly high expectations with added teacher insight you are all doing an amazing job. Out of the enormous number of schools we grilled at tours, and interactions we have had with teachers since starting, Crosfields has repeatedly matched or exceeded our expectations. From a perfectionist parent, I know that there is

nowhere else right now that my boys would get better care, and I appreciate you all more than you will ever know. Thank you for all that you do.”

“Growth mindset and raising well rounded children. Hires good teachers and school staff.”

“It is personal and authentic and feels like a family.”
